Courses

>_ **Advanced design of Software using objects I & II (10 Pines)**

>_ **Introduction to TDD (10 Pines)**

>_ **Supervised Machine Learning: Regression and Classification (Coursera)**

Skills

OOP · Agile · TDD · C#

Java · Python · HTML · CSS

JavaScript · React · Angular Js

Deep Learning · IA · Pandas

Numpy · Tensorflow · PyTorch

SQL · Oracle · PostgreSQL

< About Me />

I'm a Software Engineer with more than 14 years of experience, being a Senior full-stack developer for the last 9 years at CME (Chicago Market Exchange).
I'm proactive, open to changes and always looking for something new to learn.
Currently I'm writing a thesis to get a Master Degree on Data Science, being specially interested in Machine and Deep Learning.

< Work Experience />

Sr. Full Stack Engineer   2014-Present
Kopius Inc. / Full-Time

>_ External consultant working for the CME (Chicago Market Exchange) as a full-stack developer, on the market regulation area.
